## ITINERARY

---

*PLEASE NOTE: N.B. The chances that we can complete a full Spitsbergen circumnavigation (based on our experiences from 1992 – 2016) are about 30% in the first half of July, 60% in the second half, 90% in the first half of August, and 95% in the second half. In case we cannot complete a full circumnavigation, we may resort to a program in northeast or southeast Spitsbergen. All itineraries are for guidance only. Programs may vary depending on ice, weather, and wildlife conditions. The on-board expedition leader determines the final itinerary. Average cruising speed for m/v Plancius is 10,5 knots.*

## **Day 1: Largest Town on the Largest Island**

You touch down in Longyearbyen, the administrative center of Spitsbergen, the largest island of the Svalbard archipelago. Enjoy strolling around this former mining town, whose parish church and Svalbard Museum make for fascinating attractions. Though the countryside appears stark, more than a hundred species of plant have been recorded in it. In the early evening the ship sails out of Isfjorden, where you might spot the first minke whale of your voyage.

## **Day 2: Cruising Krossfjorden**

Heading north along the west coast, you arrive by morning in Krossfjorden. Here you might board the Zodiacs for a cruise near the towering blue-white face of the Fourteenth of July Glacier. On the green slopes near the glacier, colorful flowers bloom while flocks of kittiwakes and Brünnich's guillemots nest on the cliffs. You have a good chance of spotting an Arctic fox scouting for fallen chicks, or a bearded seal paddling through the fjord. In the afternoon you sail to Ny Ålesund, the northernmost settlement on Earth. Once a mining village served by the world's most northerly railway – you can still see its tracks – Ny Ålesund is now a research center. Close to the community is a breeding ground for barnacle geese,

pink-footed geese, and Arctic terns. And if you're interested in the history of Arctic exploration, visit the anchoring mast used by polar explorers Amundsen and Nobile in their airships, Norge (1926) and Italia (1928).

### Day 3: The Massive Monaco Glacier

Near the mouth of Liefdefjorden, you step ashore for a walk across the tundra of Reindyrflya. You may also sail into the fjord and cruise within sight of the 5-kilometer-long (3.1 miles) face of the precipitous Monaco Glacier. The waters in front of this glacier are a favorite feeding spot for thousands of kittiwakes, and the base of the ice is a popular polar bear hunting ground. If ice conditions prevent sailing here early in the season, an alternate route along the west coast of Spitsbergen can be implemented.

### Day 4 - 5: Stop at the Seven Islands

The northernmost point of your voyage may be north of Nordaustlandet, in the Seven Islands. Here you reach 80° north, just 540 miles from the geographic North Pole. Polar bears inhabit this region, so the ship may park for several hours among the pack ice to watch for them. When the edge of this sea ice is tens of miles north of the Seven Islands (mostly in August), you can spend a second day in this area. Alternatively (mostly in July) you may turn to Sorgfjord, where you have the chance to find a herd of walruses not far from the graves of 17th century whalers. A nature walk here can bring you close to families of ptarmigans, and the opposite side of the fjord is also a beautiful area for an excursion.

### Day 6: Hinlopen Highlights

Today you sail into Hinlopen Strait, home to bearded and ringed seals as well as

*Baggage, cancellation and personal insurance (which is mandatory).*

*Excess baggage charges and all items of a personal nature such as laundry, bar, beverage charges and telecommunication charges.*

*The customary gratuity at the end of the voyages for stewards and other service personnel aboard (guidelines will be provided).*

polar bears. At the entrance there is even the possibility to spot blue whales. As with Liefdefjorden, you can take an alternate west Spitsbergen route if ice prevents entry into Hinlopen. After cruising among the ice floes of Lomfjordshalvøya in the Zodiacs, you then view the bird cliffs of Alkefjellet with their thousands of Brünnich's guillemots. On the east side of Hinlopen Strait, you may attempt a landing where reindeer, pink-footed geese, and walrus are likely sights. Near Torrelneset you can also visit the polar desert of Nordaustlandet, next to the world's third-largest ice cap. Here you may encounter walrus during a coastline hike over the area's raised beaches.

### **Day 7: The Bounties of Barentsøya**

The plan is to make landings in Freemansundet, though polar bears sometimes make this impossible. Potential stops on Barentsøya include Sundneset (for an old trapper's hut), Kapp Waldburg (for its kittiwake colony), and Rindedalen (for a walk across the tundra). You might also cruise south to Diskobukta, though Kapp Lee is more likely your destination. On Kapp Lee is a walrus haul-out, Pomor ruins, and the chance for hikes along Edgeøya.

### **Day 8: Land of the Pointed Mountains**

You start the day by cruising the side fjords of the Hornsund area of southern Spitsbergen, taking in the spire-like peaks: Hornsundtind rises 1,431 meters (4,695 feet), and Bautaen is a perfect illustration of why early Dutch explorers named this island Spitsbergen, meaning "pointed mountains." There are 14 sizable glaciers in this area as well as opportunities for spotting seals, beluga whales, and polar bears.

## Day 9: Beluga Beach

Today you land on Ahlstrandhalvøya, at the mouth of Van Keulenfjorden. Here piles of beluga skeletons, the remains of 19th century whale slaughter, are a haunting reminder of the consequences of rampant exploitation. Fortunately belugas were not hunted into extinction, and you have a good chance of coming across a pod. Cruising into Bellsund during the afternoon, you can then explore tundra at the head of the fjord, where reindeer like to feed.

## Day 10: Journey's End in Longyearbyen

Every adventure, no matter how grand, must eventually come to an end. You disembark in Longyearbyen for your flight home, but with memories that will accompany you wherever your next adventure lies.
